I respectfully urge the FCC to reject the NAB'S petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. My career takes me on all 48 states and sometimes to Canada. As an avid radio listener, I enjoy the diversity of music XM Radio has to offer. I can sit back and relax and enjoy my kind of music without the fear of having that station fade away. I am on the wheel hours at at times and there are times that I need to know what 's ahead of me. With XM local programming, I am much more confident on the road than ever before. I know what lies ahead of me and can avoid any trouble spots.

If these so called NAB are afraid of satellite radio, perhaps they should do something to improve themselves instead of running to gov't for help. It's people like them that tend to stifle innovation because they are afraid of doing some real work.

One thing about being a registered voter, if my congressman doesn't listen to me now, he will at the voting poll in November.

Thank you for looking into this matter  
I Sincerely appreciate it.

MANUEL MORALES
